## GREEK FIRE.

How the Terrible Engine of Destruction Was Used in Warfare.

Joinville, who served under King Louis IX in the seventh crusade of 1248, gives a graphic description of the horrors of Greek fire: "It happened one night that the Turks brought up an engine that they called the perriere (stone thrower), a terrible engine of destruction, and placed it in front of some cat castles (chaz chasteil) that M. Gaultier de Chrol and I were guarding that night, and from this engine they threw Greek fire at us in great quantities (a plante). It was the most horrible thing that over I saw. When the good knight, M. Gaultier, my comrade, saw the fire, he cried out and said to us: 'Seigneurs, we are lost forever without remedy, for if they set fire to our cat castles we shall be consumed and burned, and if we leave our post we shall be disgraced, and so I conclude that there is no one who can defend us from this peril except God, our blessed Creator. Order all our men, every time the enemy throws the Greek fire, to throw themselves on their hands and knees and cry, "Thanks to our Lord, in whom is all power!" And whenever the Turks fired the first shot we threw ourselves thus on our hands and knees, as our commander had ordered. The nature of Greek fire was such that it advanced toward us as big as a tree, and its tail extended a yard in length (une demye-canne de quatuor paces). It made such a noise in coming that it seemed as though it were a thunderbolt falling from heaven and appeared to me like a great dragon flying in the air. It threw out such brilliant light that it was as clear as daylight in our host, so great was its flame of fire. Three times that night they threw this Greek fire at us from the aforesaid perriere and four times from the great crossbow (arbaliste a tour), and every time our good King St. Louis heard that they were throwing the fire at us in this manner he cast himself upon the ground, and stretching out his hands, with his face upraised to heaven, he cried in a loud voice to our Lord and exclaimed as he shed great tears, "Bene Sive Deus Jesus Christ, garde moy et toute ma gent." ("Histoire de St. Louis," Petitot, volume 2, page 235.)

The cat castles mentioned by Joinville were wooden towers used in sieges, and the word came is a French measure of length equivalent to six feet and consisting of eight paces or nine inches each. There was nothing novel in the mere throwing of fire. It has always been one of the usual incidents of sieges. —Gentleman's Magazine.

## SAVED BY A CAT.

How a Faithful Young Man at Last Got a Spoon.

There is a man, well known in judicial circles as one of the most polished and courtly of gentlemen, who tells the following story:

He had not, in his early youth, those advantages which tend to produce ease of manner. When about 15, he was much in love with a neighbor's daughter, and, according to his statement, was at this time nearly 6 feet tall, ungainly, shy and with the proverbial ubiquitous hands and feet.

One Sunday he was at dinner with his rosy cheeked sweetheart, and when the guests had been served with soup the youth discovered that he had no spoon. He grew red in the face and was in an agony of mortification and dismay. If he asked for a spoon, he felt sure every one would look at him; if he did not eat his soup, his hostess would be sure to remark it. What was he to do? He felt his hands growing larger and more in the way than ever, and his foot caused him untold emotion by absolutely refusing to go under his chair.

Great beads of perspiration stood out on his face and trickled down like rain. The situation was becoming unendurable when a terrified cat, pursued by a small long-eared toad, rushed into the room and sprang upon the table. The guests jumped up, and in the general confusion the embarrassed youth retained his seat, and turning to the servant remarked calmly, "I'll have a spoon, please." —Washington Times.

## A Boston Preacher.

The Rev. Robert MacDonald is one of Boston's clergymen who may be described as sympathetic preachers. He has an easy presence in the pulpit and a face whose character denotes sympathy. When in the midst of a warm passage of his sermon, his words pour out in a torrent and by the very impetuosity with which he himself seems carried away he holds his hearers and puts his thoughts into the minds of those whom he has brought into sympathy with him.—Boston Traveller.

## Complained to the Wrong Man.

The mendicant stood before the wayfarer with outstretched hand.

"Please, sir," he said, "I have seen better days."

"Well, that's no affair of mine," said the wayfarer. "Make your kick to the weather man if you don't like this kind of a day." —Chicago Post.

## THE DEMONETIZATION OF SILVER.

The *National Bimetallist* is published at Chicago. Among its readers are persons who, like some of the Wall Street auxiliaries in Nevada, do not think that silver has been demonetized in the United States. One of the asks, What is meant by the demonetization of silver? and the editor of the *Bimetallist*, Mr. Bartine, answers the question as follows: "Prior to the 12th of February, 1873, any person having silver bullion of suitable fineness could take it to the American mint and have it coined into dollars at the rate of 371 1/2 grains of fine silver to the dollar, the Government putting, in enough copper as alloy to make the weight of the dollar 412 1/2 grains. The dollars thus coined were full legal tender for all debts, public and private.

"On that day the mint law was revised, and in the revision the silver dollar was omitted from the list of coins and a trade dollar of 375 grains of fine silver or 420 grains of standard silver was substituted. By the general revision of the statutes, which took place in the same year, the legal tender limit of all silver coins was fixed at \$5, so that, instead of seeing silver dollars, we saw trade dollars that were only available as money up to \$5. This constituted the demonetization of silver. Every dollar of our enormous debt, public and private, became at once payable exclusively in gold, except that silver could be used for the payment of small debts not exceeding \$5."

The above is not new to the people of this State, though there are those who for the purpose of making political capital by deceiving the uninformed, dispute it and assert that silver was not demonetized. Now, as Mr. Bartine, who was the acknowledged leader of the Republican party in Nevada for several years, including the last campaign, plainly states the facts relating to demonetization, it is to be hoped that the golden men in this State will no longer deny it. Mr. Bartine believed the Republican party would make amends for the infamy of 1873 by demonetizing silver and clung to that party until the last ray of hope expired. Now he is doing good service to the silver party by enlightening those of his old party associates who do not understand the silver question and is making converts daily to the silver cause.

## DELEGATES TO THE NATIONAL CONVENTION.

The National Silver and People's party Conventions will be held in St. Louis, July 23, to nominate candidates for the President and Vice President of the United States, the men whom the leading masses, the bread winners of the country, will support at the polls next November. Nevada is entitled to 25 delegates in the National Silver Convention and seven delegates in the People's party Convention. As the two parties in Nevada advocate the same principles and differ only in name, the same persons might represent the State in both conventions, but that, however, is for others to determine.

As times are hard and money scarce will it be advisable for the silver men of Nevada to hold a State convention to elect delegates to St. Louis? Usually conventions called for such a purpose in this State are not well attended and it is not likely, if one is held this year, that it would be an exception to the rule. What then should be done? Would it be satisfactory to have the State Central Committee appoint the delegates? If it would, the County Central Committees might suggest the names of one or more persons from their respective counties who will, if appointed, attend the convention. It is not likely that more than twenty-five persons will care to incur the expense, and possibly that number may not want to do so. At any rate as a convention will have to be held later in the year to nominate electors, Congressman, Justice of the Supreme Court and Regents of the State University, it is not advisable to hold one to elect delegates to St. Louis.

PROFESSOR ROBERT L. GARNER of Roanoke, Virginia, who went to the jungles of Africa last Summer to learn more about the language of monkeys, has returned. He was shut up in a cage among the monkeys and studied their peculiarities. He is convinced that monkeys talk to each other and that some of them possess a higher degree of intelligence than many of the African natives. Some of the chimpanzees play musical instruments and dance. He believes that some of the monkey race are organized into tribes and live under a sort of government.

The new British dollar is said to be received with favor in the Orient, and is supplanting the Mexican dollar. The British depress silver, buy the metal from producers on this continent at the lowest possible price, coin it into money, which they send to the Orient, where its purchasing power is as great as it ever was, and, of course, make a large profit on the transaction; and, strange to say, American citizens living in the silver producing State of Nevada assist in depressing silver by sustaining parties that are opposed to its coinage.

The secret of Senator Quay's Presidential aspirations is out. It was impossible to secure a united delegation for Reed in Pennsylvania, and to prevent a division and some of the dele-

gates from voting for McKinley, Quay entered the field. The conference which brought Quay into the Presidential fight was attended by Boss Platt of New York, Mr. Clarkson of Iowa, Mr. Hobart of New Jersey and many other prominent Republicans. Senator Quay is a practical politician and said by those who know his methods to be the shrewdest in the United States.

## CONGRESSIONAL PROCEEDINGS.

The Bond Sales—Extension of Time to Bring Suits to Annual Patents to Railroad Lands.

WASHINGTON, February 19.—The Senate has agreed to take up the Cuban resolutions at 2 o'clock to-morrow.

Lodge presented in the Senate a resolution directing the Finance Committee to investigate and report on the circumstances attending the sale of United States bonds during 1894-5, and the disposition of the proceeds of such sales. The resolution went over. It is substantially the same as the resolution which lost its parliamentary status yesterday by Hill's speech carrying the debate up to 2 o'clock, except that it directs the Finance Committee, instead of a special committee, to make the investigation.

The Senate passed the Diplomatic and Consular Appropriation bill.

The House committee on Ways and Means to-day voted to report a bill for the killing of all the seals in Behring Sea unless an executive agreement for their protection can be reached.

The House Committee on Territories voted to reconsider the former vote against the Arizona and New Mexico Statehood bills, thus leaving them still before the committee.

The House passed a bill to extend the five years time within which suits may be brought to annual patents issued under railroad, Mexican or other special grants. Amendments were adopted limiting the application of the act to "railroad and wagon grants and the following proviso was made:

That no suits shall be brought, nor shall recovery be had for lands that were patented in lieu of other lands covered by a grant which was lost or relinquished by the grantee in consequence of the failure of the Government to withdraw the same from sale or entry. A substitute offered by McKee to repeal the Act of 1891 was defeated by 72 to 149.

## The Kenwood Land Company.

SANTA ROSA, Cal., February 19.—Proceedings have been instituted to foreclose a big mortgage on lands bought by the Kenwood Land Company at Kenwood, by Mrs. Ginoli, who sold the company the land. Many of the settlers who bought land from the company and made part payments on the same fear that they will not only lose what they have paid on the land, but will lose title to the land. The amount involved is over \$50,000.

Carter to Explain  
WASHINGTON, February 19.—Carter has offered a resolution in the Senate to recommend the Tariff bill and has given notice of a speech on the subject next Monday. It is presumed that he will explain the position of the silver men who voted against the taking up of the bill last week.

## TELEGRAPHIC NOTES.

The Republicans of the House and Senate have issued a call for a caucus to-night.

The Republicans carried Pittsburg, Pa., yesterday, where they usually have a large majority, after a very hot fight.

Thirty-four persons were burned to death at the Artist's Club at San Taren, Portugal. The building caught fire while the ball was in progress.

William James, the Pennsylvania militiaman who was drummed out of camp at Homestead at the time of the strike at the Carnegie works, was fatally shot in a quarrel at Baltimore yesterday.

A steam log hauler at McKay's lumber camp, near Suncy, Michigan, became unmanageable and ran along the road at full speed, killing four men and seriously injuring seven others.

Commander-in-Chief Walker of the G. A. R. has been notified that the railroad will give a 1-cent rate for the annual encampment, and he will issue an order for the encampment to be held at St. Paul.

John L. Waller, sentenced to twenty years imprisonment by French Court Martial for communicating with the Hovas during the Madagascar war, is to be released. His pardon has been sent to the President of France for his signature.

J. W. Mills and J. R. Wagner, prominent cattlemen, quarreled over a division fence at Hardin, Oregon. Several shots were exchanged. Wagner was fatally wounded, and Mills will lose his right hand. Mills surrendered to the Sheriff.

## HONEST AND COMPETENT.

A Story of Three Former Nevada Officials

The following good story is told in the *San Francisco Post*:

"No State in the Union ever had three such picturesque, honest and competent men occupying State offices at one time as Nevada," declared an old-time politician, "when L. R. Bradley, an old cattle man and millionaire, was Governor; Jerry Schooling, an old blacksmith, State Treasurer, and Bill Hobart, a prospector, as Comptroller.

"Once, when the Legislature refused to pass the appropriation bill so that an extra session would have to be called, Governor Bradley went to Treasurer Schooling and asked how much it would take to run the State Government two years. He was told half a million dollars. 'Then,' said he,

'tell those blamed scoundrels to go to the devil with their appropriation bill. I'll run myself two years.' The bill was passed.

"Once old Jerry Schooling bundled \$500,000 worth of State bonds into his old carpet sack and brought them to San Francisco to sell for State purposes. He stopped at the old Cosmopolitan Hotel, on Sansome and Bush streets, and as he was preparing to leave for home he asked the landlady to loan him \$40. He knew of Jerry's mission and knew it had been successful.

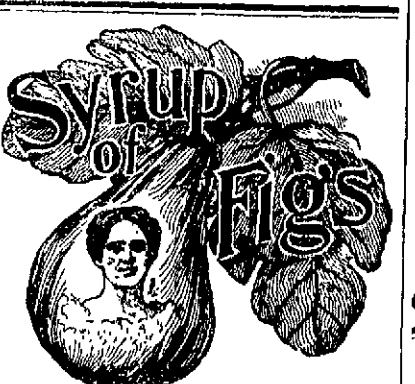

"What do you want of \$40?" he asked. "You have a carpet sack full of gold and currency."

"Yes, but that belongs to the State. Suppose I should take \$40 of that and the cars should run off the track, and the people of Nevada find old Jerry Schooling all smashed, and when they found the grip sack and counted over the money they would find it \$40 short. What then? Not much. The people of Nevada will never catch old Jerry Schooling embezzling. Let me have \$40, won't you?"

## Board of Commissioners.

The Board of Commissioners met yesterday to consider the matter of purchasing the right of way through the land of S. O. Wells, south from Judge Young's residence, on Mill street, to a point on the old race track road, for the purpose of driving cattle into town from the southern part of the valley. The appraisers who were appointed at a previous meeting—Messrs. A. G. Fletcher, W. E. Gould, L. Dean and B. F. Leete—reported the land to be worth \$100 25 per acre. F. L. Gould, surveyor, reported that a road 60 feet wide would take up 5.35 acres of land. A petition was presented signed by a number of freeholders asking that the road be opened.

The board postponed final action on the matter until to-day.

## Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Editor JOURNAL. In view of the progress made in the independent movement by a large majority of the people of Nevada four years ago, I am of the opinion that it is about time that some of the soldiers in the cause of independence should make a summary of the gains made in the interest of and for the welfare of the masses of our people.

Looking back to the years from 1876 to 1892, nearly all of us belonged to the two old parties, Republican and Democratic. We were loyal to our parties and their traditions. We followed our leaders conscientiously and almost blindly. This was partisanship, and most of us were proud of the fact. You voted the Democratic ticket as a matter of principle, while I voted for Republicans as a religious duty. It is true that each of us at times were ready to admit that our party leaders in national politics had failed in carrying out the promises made in the platforms, but each of us concluded to stay with our party. This substantially was the condition of the masses of our people prior to 1892, when the revolution came.

Moved, as it were, by a common impulse, fully two-thirds of the voters of each of the old parties concluded to take a new departure. Dried-in-the-wool Democrats and old-line Republicans fraternized and shook hands across the bloody chasm, as it were, and when the compact was complete, neither could or would admit that any principle had suffered, but we all claimed that then we were in a position to demand that which we each so long had prayed for. The independents of each party had cut loose from the promulgated new Declaration of Independence couched in few words but effective like the Roman sword, on account of its shortness, to wit: "We will henceforth not vote for any man who is not for the restoration of silver to its place as one of the money metals of the constitution." This was the war cry of the masses, regardless of old parties, and the people ratified the platform by a two-thirds vote at the polls in 1892 and, so far as your correspondent is aware, not one of the then majority is at all sorry for his acts at that time.

It is true that the lallypooes, such as the *Gazette* man and the *Enterprise* editor, are telling from time to time of the "waning" of the party of the people, but that is nothing new now for it was the same in 1892. Then they told us it was a mushroom growth and could not succeed. But we did succeed, and then it was urged that Nevada alone could do nothing; and they were wrong again, for the people, independent of either of the old parties, sent an independent to the Senate of the United States and an independent to the lower House of Congress. These two independents went there to work for the best interests of Nevada; and, not only this, but the independent action of the people of our State secured a solid independent delegation from Nevada, which, by the way, is recognized wherever known as one of the most influential and able delegations from any State in the halls of Congress. And this is not all. It is said that like begets like, and the result is that a few days ago the spirit of independence reached a large majority of the Senators of Congress and that a large percentage of both Democratic and Republican Senators voted with our own independents and passed a bill to restore silver to its rightful position as a money metal. And all this gain has come in a short time and in the face of the money grabbers and slylocks of Wall street and the office-seeking home guards of our own State. Who, then, will have the courage to say that we will not have free coinage within two years? And as free coinage and a just settlement of our government finances go hand in hand, who doubts that in the near future our mining industries will revive, silver be worth \$1.20 an ounce, wheat \$1.50 a bushel, wool 20 cents a pound, hay \$15 a ton and plenty of work for all honest laborers at from \$2.50 to \$4 a day? Then Nevada will take a place worthy the name of a State. All hail the independent people of Nevada. They are the salt of the earth, and no doubt, will continue the battle that promises such grand results. So mote it be.

Reno, Feb. 17, 1896. H. H. B.

Justice Court.

Action was commenced in the Justice Court yesterday by the District Attorney in the matter of the bond of Ben Pierce for \$750, C. C. Powning, James Sullivan, S. L. Laughton, T. K. Myers and Spiro Francovich being the sureties. There is considerable doubt regarding the collection of the bond, as Pierce has skipped, and it is said that he never signed the bond as principal, hence the bond is of little value.

In the case against S. J. Bryant, for violating one of the town ordinances, he was discharged on motion of the District Attorney. It was considered advisable to dismiss the proceedings, from the fact that an injustice was done the cattlemen, as there was no other convenient avenue to bring cattle into town from the southern part of the valley. The Commissioners are now arranging to open a road especially for this purpose.

The remains of Leslie Drew, who was drowned at Donner Lake last Sunday, were shipped to Plumas county yesterday morning for burial.

Mrs. Buckman of Truckee, formerly Mrs. W. L. Edwards, widow of one of the early proprietors of the *Gazette*, was a visitor to Reno yesterday.

J. B. Williams was appointed administrator of the estate of the late Chas. Trosi, by Judge Choney yesterday, the bonds being fixed at \$500.

L. G. Clark of Likely, Modoc county, is here, watching the cattle market. He says the winter up in his section has been about the same as here.

An item in the *JOURNAL* of yesterday morning stated that a son of J. B. Thomas had broken his arm. It was not the son, but his step-daughter.

For natural looking and comfortable fitting artificial teeth go to Hutchinson. His painless extracting is just the thing. Office Sanderland's building.

Two cars of cattle for the Baden Meat Company arrived on the N.C.O. last evening, and 16 cars of sheep from Lovelocks, which were unloaded here for rest.

The warm days seem to give many people the Spring fever. Cleaning yards, spading, and trimming trees is to be seen at many of Reno's pretty homes.

W. Sanders, who was confined to his house for several weeks with the grippe and pleurisy, is able to leave the house again and is in a fair way to recover his usual good health.

Miss Nellie Sullivan of Virginia, who has been visiting Mrs. Stewart Logan for some time, took the train for San Francisco yesterday morning, where she expects to reside.

The Humboldt Grand Jury dismissed the charge of murder against Monica Echeverria and indicted John Boster, an Indian, for the murder of Frank Messer at Limbo.

The Masonic fraternity propose to build a National University on the Ohio river 25 miles below Pittsburg, Pennsylvania. The directors have purchased 132 acres of ground for a site and have taken option on 800 acres more. The grounds and buildings will cost about \$5,000,000 and its success is assured.

## LOCAL AND GENERAL NEWS.

Items of Interest From Here, There and Everywhere.

The *Courier* says the cattle and sheep that are grazing in the valleys south of Belmont are in fine condition.

Most of the machinery used in South Africa is of American manufacture, and of the mine timbers are supplied by California and Oregon.

The Eureka *Sentinel* says W. J. Smith and J. H. Hoogh returned last Tuesday from a visit at Mercur, Utah. They report business there as being very lively, and there will be a big mining boom in the spring. They had confidence enough in the prosperity of the place to make some investments while there.

The Belmont *Courier* has a private letter from Montgomery District, Nye county, in which the writer says that "everything here is lovely and the goose hangs high." The writer also states that the gold mines are looking tip-top, and that it is expected that a large number of men will be employed by the mine owners in the near future.

According to the Caldwell, Idaho, *Tribune*, E. H. Lewis, a Chicago capitalist, is about to launch a floating mining camp on the Snake river. The boat will carry an engine and boiler weighing 24,000 pounds, dredges, cranes and pumps of all description, and boarding-houses to accommodate fifty men. This mechanical battery will move up and down the river, working the channel and banks for gold. The scheme has been tried on a small scale and proved successful.

The Austin Mining Company, says the *Revelle*, run the big tunnel 250 feet ahead in the month of January, and the work is being pushed as rapidly this month. An air blower is to be put in the tunnel soon.

The case of the Sparks, Harrell Co. vs. James Bevis is being tried in Elko county. The suit grew out of the defendant's shoe trespassing upon lands of the Sparks, Harrell Co. The damages claimed are nominal, the object being to test the validity of the Trespass law.

"TRILBY" AT THE OPERA HOUSE.

A Large Audience and Very Satisfactory Performance.

The A. L. Palmer Company presented "Trilby" at the Opera House last evening to a large and appreciative audience, in fact one of the largest audiences that has gathered at the theater for some time. The play gave general satisfaction and many who had previously regarding it and who had not read the book took advantage of the opportunity offered last evening to see it. The company was good; there were no sticks. Each member played his or her part well and received due recognition. John Piper deserves credit for his energy in trying to get first-class companies for his circuit, and the following from the *Carson News* expresses the heavy risks and chances he takes in procuring good combinations and in many instances will apply to Reno as far as profit goes:

"John Piper is to be congratulated upon the excellency of the theatrical companies he is bringing to Carson. The Palmer Company, which played here last night, has no superior on the road. Katie Putnam occupies an enviable position among theater goers. She is the next attraction and so on. Companies like the Palmer demand a big share of the receipts and large houses are necessary to make Mr. Piper even. The truth of this may be realized when it is known that with the large house last evening he made less than \$5. Of course the show management fared well, as they got it nearly all."

## A Change of Firm.

A change in the partnership of Dumble & Armanko took place yesterday. Mr. Dumble retiring and disposing of his interest to S. H. Rosenthal. The latter in an energetic and live young man and will add much to the strength of the firm. It will be the aim of both proprietors to please their patrons and to keep a carefully selected stock of notions, novelties, stationery, the finest brands of cigars and tobaccos and smokers' articles, besides such other goods as will come in their line. Besides this, they are agents for the San Francisco daily papers and other reading matter, and will promise the best of service. Both are deserving young men and simply ask a fair share of patronage and will give value received for every dollar spent with them. Remember, their store is on Commercial Row, near the depot.

## A Bullet Removed.

About two months ago Charles Armstrong was accidentally shot in the arm. The bullet—38 caliber—entered the arm near the wrist and lodged against the bone near the elbow. He spent some time in the hospital, and yesterday the Drs. Gibson made an examination of the wound and extracted the bullet near the elbow. There are three grooves, each nearly a quarter of an inch deep, in the bullet, caused by its striking the bone. The young man will now have perfect use of his arm, and it is expected that the incision made to extract the bullet will be healed in ten days.

## BREVITIES.

State Treasurer Westerfield is grading block K, fronting Second, Balston and Bell streets, Downing Addition. It is one of the most desirable locations for residences in the town.

There is a probability that Senator Teller of Colorado will be the nominee of the National Silver Convention for President and that he will be endorsed by the People's party National Convention.

Yesterday was the big day of China New Years and the closing day of the festivities. During the afternoon they made things bowl for a couple of hours. There were many visitors to the celestial quarters during the day.

Dr. Spencer, an early physician of Eldorado county, California, and now of Sacramento was a guest of Mr. and Mrs. S. M. Jamison yesterday. He called on the old Georgetown and Yankee Jim people now living in Reno.

Jim Raser says if Palmer's troupe will go out to Buffalo and play Trilby, the buckaroos will lasso Svengali and the Indians will scalp him and save him the trouble of dying from heart disease, and Trilby can have the best horse on the range and the range if she wants it.

There were a number of excursionists for San Francisco last evening, their principal object being to hear Paderewski, the pianist. From Virginia was noticed Lieutenant B. G. Hass, E. D. Knight, Clarence Sharon, Gen. R. P. Keating and daughter, J. B. Overton, Miss French, Miss Lamb and Miss Amelia Klies. From Carson there were Dr. Hennessy and wife and Charles E. Musser.

The Board of Trustees of the Reno Real Estate and Investment Company advertise for proposals for erecting their new building on the corner of Second and Sierra streets, west of the Journal office. All bids must be sent to the Secretary, F. M. Lee, at the Washoe County Bank. The company proposes erecting one of the handsomest buildings in the State of Nevada. The foundation is laid and the building will be erected this Summer.

PROFESSIONAL CHESS PROFITS.

The Pecuniary Rewards Small In View of  
Demands on the Intellect.  
Professional chess players, consid-  
ering the laborious nature of their work,  
the character of mind, and the long pre-  
paratory study required, are probably as  
ill paid as any kind of intellectual  
workers. The professional chess player  
who earns by his play more than a de-  
cent modest living is a highly successful  
man. An expert may be hired to run a  
chess automaton and play with all  
comers at a salary less than some type-  
writers earn. There are in all the world  
probably less than half a hundred high-  
ly skilled professional chess players.  
The Hastings convention brought to-  
gether 22, and the number was notable  
A few professional chess players are  
men of money, but for the most part the  
period for the game leads the profes-  
sionist to play to put aside material con-  
siderations in order to follow his heart  
game of the best known players dress  
decently and live plainly. The ablest  
players are usually ex-actors on tour  
and directly from the game  
they get on chess, discussing prob-  
lems, and the like. Books on chess are  
not a common sight, but none has a  
higher sale. They are costly to produce,  
and the stereotype plates are of small  
value. The aggregate of considerable  
prizes offered in chess contests through-  
out the world amounts in any one year  
to only a few thousand dollars, and a  
player of \$1,000 is a large one. Amateurs,  
who far outnumber the professionals,  
pay the prizes and meet the expenses  
of the tour games. St. Petersburg is an  
important chess center, and there the  
traveling expenses of the professionals  
are made up by the local clubs.  
Professional chess players are rarely  
men of liberal education and usually  
men of one idea. Chess has been the di-  
vinity of great and broad minded men,  
but it is commonly the business of men  
devoted to one idea. The professional  
chess player seems to be in the pursuit  
of the game. One whose duty it was to  
play six hours a day with all comers at  
the place of amusement was accustomed  
to follow his duty's work with two hours  
of labor as study of special chess prob-  
lems. It was this spirit that made Paul  
Morphy of New Orleans abandon a  
promising career at the bar and cling to  
the game until his physician warned  
him that he must give it up or lose his  
reason.  
Famous as chess has long been, there  
are comparatively few really skilled  
players, and it is impossible to main-  
tain anywhere a very large chess club.  
Over the world, then, the world is in this  
game, it is a large club compared  
with other games. It is almost impossible  
to find a country to form a large chess  
club, but socially democratic  
clubs are the best amateur chess  
clubs. One of the best amateur chess  
clubs in the world is the ordinary cen-  
tral club. There is a great deal of  
good chess playing of good chess players  
in the central club. They frequent  
the famous club, lodged in an old  
house on the corner of the city, and known  
as the "Chess Club." The club is  
located in a small border state  
of New York. Once a year, as to  
the chess players of the country,  
Oswego is a chess center and gen-  
eral fact in a small border state  
of New York. Although chess is a thou-  
sand years old, the chess club is a  
fact, and by correspondence with  
European chess clubs, to arrange chess tour-  
naments and to write upon chess. When  
he comes to New York, he busies him-  
self among chess players to the neglect  
of all his friends not equally devoted to  
the game.—New York Sun

The Pope's Private Apartments.

To the pope's bedroom only his pri-  
vate valet and his secretaries have ac-  
cess. It is of small dimensions, and con-  
tains only a bed, in an alcove adorned  
with graceful marble columns, a writ-  
ing table, an armchair and kneeling  
stool and one wardrobe.  
Besides this, there is his private  
study, in which the table and chair  
stand upon a little carpeted platform,  
other tables being placed on each side  
upon the floor, together with an ex-  
tremely uncomfortable but magnificent  
straight backed armchair, which is one  
of the gifts offered on the occasion of  
the episcopal jubilee. There is, more-  
over, a little room containing only an  
old lounge and an old fashioned easy  
chair with "wings," and nothing else.  
It is here that the holy father retires  
to take his afternoon nap, and the re-  
laxation of his nerves is proved by the  
fact that he lies down with his eyes  
fixed on the broad light of the window.  
His private apartment occupies the  
second floor, according to Italian reckon-  
ing. The pope's apartments should call at  
the Vatican. It is a level with Raphael's  
frescoes. The floor above it is inhabited  
by the pope's family, the secretary of  
state and the Vatican library.

A man one morning at family pray-  
ers, prayed for a good neighbor in great  
disturbance. After the prayer his boy  
said to him, "Papa, give me your pocket-  
book, and I will go over to Mr. Smith's  
and give him your prayer my-  
self."—Louisville Courier Recorder

The Skeleton of the Road.  
The local historians of Baton Rouge,  
La., believe that the mortal remains of  
Fernando De Soto lie buried between  
two gigantic live oaks near the present  
site of Port Hudson. The books tell dif-  
ferent tales about the death and burial  
of the great discoverer. Some say that  
he was wrapped in his mantle and  
thrown into the Mississippi; others that  
the remains were incased in a hollow  
log. In 1858 three hunters—Rigsby,  
Davis and Hurin—were encamped near  
what is now Port Hudson. While kind-  
ling a fire they found a human skele-  
ton in a hollow log that had been lying  
in a drift. The bones were those of a man  
six feet tall. In the log a helmet, a  
rusty sword and a large bronze crucifix  
were also found, and on one of the fin-  
gers of the skeleton's hand a large seal  
ring. The discoverers of this ghastly  
memento believe that the remains were  
those of De Soto, the discoverer of the  
Mississippi river. The burial place of  
the bones is well known to the Rigsbys,  
who still reside in Louisiana.—St.  
Louis Republic.

Cold and Clothes.  
People who are susceptible to the cold  
should make a point of wearing loose  
clothing in cold weather. Loose gar-  
ments are always warmer than tight  
fitting ones, not only because they allow  
room for circulation, but also because  
they permit a layer of air between the  
skin and the outside cold.—New York  
Sun.

The Oldest Known.  
A French medical paper prints what  
is believed to be the oldest known med-  
ical recipe. It is a tonic for the hair, and  
its date is 4000 B. C. It was prepared  
for an Egyptian queen and required  
dogs' paws and asses' hoofs to be boiled  
with dates in oil.

Gold, silver, copper, iron, tin, lead,  
mercury, sulphur, carbon, antimony,  
bismuth and zinc were the only min-  
erals known at the time of the discovery  
of America.

The ancients, according to Pliny,  
made a very excellent sympathetic ink,  
using raw milk as the basis.
